

## **A Hammer and an Awkward Nail**

I've got a hammer and an awkward nail that won't go down  
I can try real hard but still it won't go down  
Tell me how to do it Jesus  
Tell me how to do it Jesus  
I don't know how

The shadow in the corner is a stray cat that we found  
I paid a thousand bucks once to keep that cat around  
Now it's lying on the pavement  
And the kids are crying, "save it!"  
But I don't know how

Did you straighten that nail with a magic tool?  
Did you ever get tired and want to change the rules, Jesus?  
What's amazing to me about a man like You  
Is that you raised the dead but had to suffer too, Jesus

I've got a mountain up ahead  
And a few I've left behind  
And I'm getting kind of scared of what I'm going to find  
Were you scared to do it Jesus?  
Tell me how you did it Jesus  
I don't how

If the present is a place that  
my future will define  
I want to slow things down and take a little time  
Can you help me do it Jesus?  
I want to live a little Jesus  
But I don't know how

Did you straighten that nail with a magic tool?  
Did you ever get tired and want to change the rules, Jesus?  
What's amazing to me about a man like You  
Is that you raised the dead but had to suffer too, Jesus
