

## **The Gardener's Song**

I wanna build you a garden  
In a dry and desert land  
I'm gonna find a river there  
I'm gonna find a river there

I have seen a garden grow  
In a land filled with injustice  
I have heard a mother's cry  
For her child to live again

I have seen a withered soul  
Fall like petals on the water  
I have watched a flower grow  
Slowly rising toward the sun

No one knows what God has seen  
As humankind destroyed this Garden  
With bleeding hands we'll plant the seeds  
And He'll make all things new again  
God will make all things live again
